

ASSET TRACKING SOLUTIONS FOR YOUR BUSINESS.

AT BLAKEDALE WE TAKE YOUR PHYSICAL ASSET SECURITY SERIOUSLY.

Our new asset tracking solutions can track the location of your plant equipment, machinery, vehicles and other valuable assets, as well as improve asset utilisation, maximise ROI, and protect against asset misuse and theft.

Asset tracking from Blakedale helps you keep track of your assets, allowing you to run your business and operations more efficiently whilst protecting you from the dangers of asset loss and theft. Our solutions keep you connected to your fleet of assets through our asset tracking platform, and help drive business efficiency, safety and security.

KEY FEATURES AND BENEFITS

Enhance Visibility

- View current asset location and improve asset management
- Review asset location history
- Stay connected via desktop and mobile

Improve Security

- Set-up asset tracker Geofences for specific asset locations
- Four planned asset tracker location updates per day - notification alert generated if asset has left the Geofenced zone
- Aid asset recovery in the event of a theft

Increase Utilisation

- Use our range of reports to make informed decisions
- Deploy assets to where they are needed
- Respond faster to operational and customer needs
